

WEBASTO NEXT x MONTA

1

Prepare.

You need

-Access to the web interface or the app-Access to the Monta Charging Portal or the new Charging Hub (<https://portal2.monta.app>)

-The ChargePoint ID of your wallbox (e.g. NEXT-WS110607). This can be found on the housing, for example.

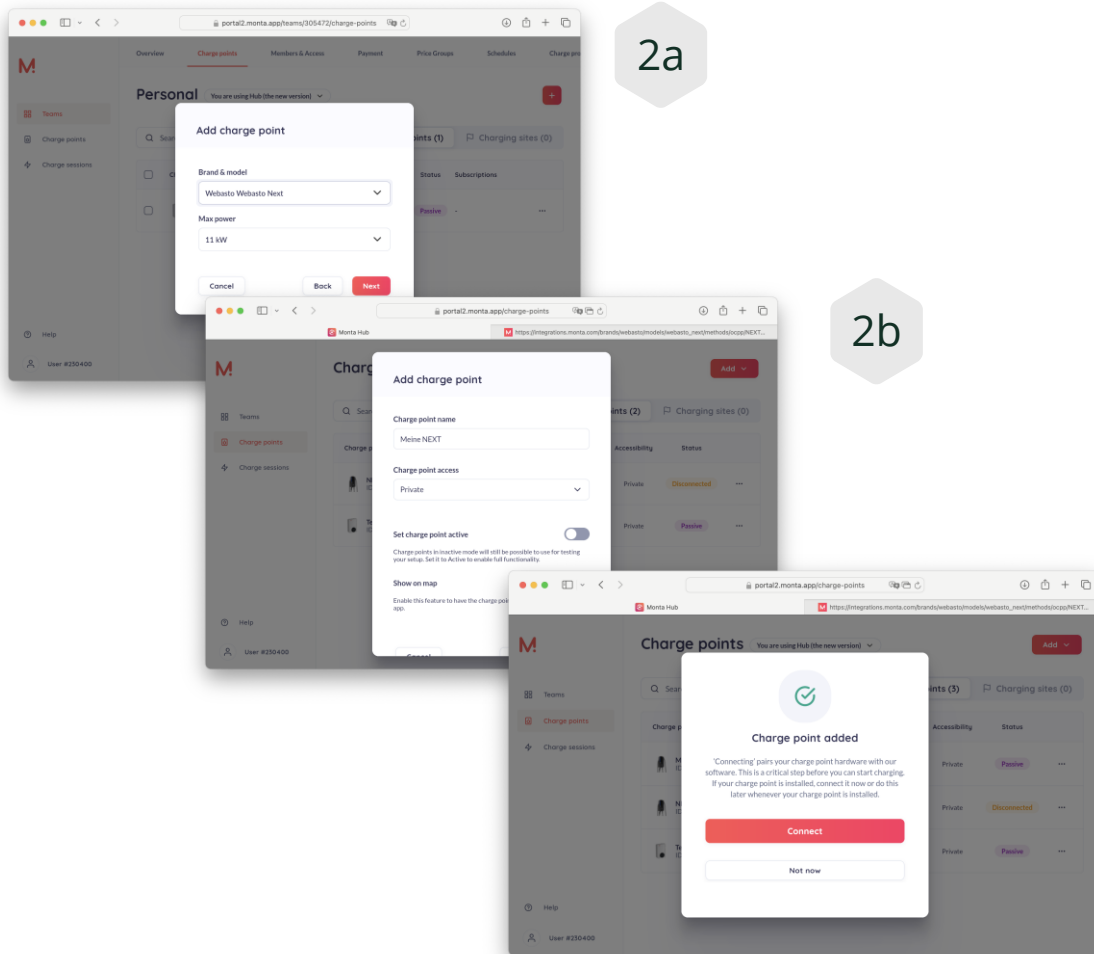

The screenshot displays the Webasto web interface. The browser address bar shows the URL 172.20.0.1/#/home. The navigation menu includes AUTHORIZATION, BACKEND, LOAD MANAGEMENT, NETWORK, POWER, PROFILE, and SYSTEM. The main content area is split into two columns. The left column features a photograph of a person's hands holding a smartphone next to a Webasto Next charging station. The right column contains a 'Summary' section with the following data:

Summary	
Total Charging Sessions	52 Sessions
Duration of current charging session	0.0 minutes
Current Energy	0.021 kWh

Below the summary is the 'Systemstatus' section:

Systemstatus	
OCPP ChargeBoxIdentity (Charge PointID)	NEXT-WS110607
OCPP State	Available
Type2 State	CableNotConnected
Signal Current	0 A, 0 A, 0 A
Signal Voltage	233 V, 232 V, 234 V
OCPP Connection State (Backend)	Not Connected
Connected Interface (Backend)	
Free Charging	Enabled

Set up in Monta

You need

-Add a new ChargePoint and select “Webasto Next 11kW”

-Select the location

-Enter the details (Private or Public and a name of your choice)

-Click on “CONNECT” to access the Integration Manager

WEBASTO NEXT x MONTA

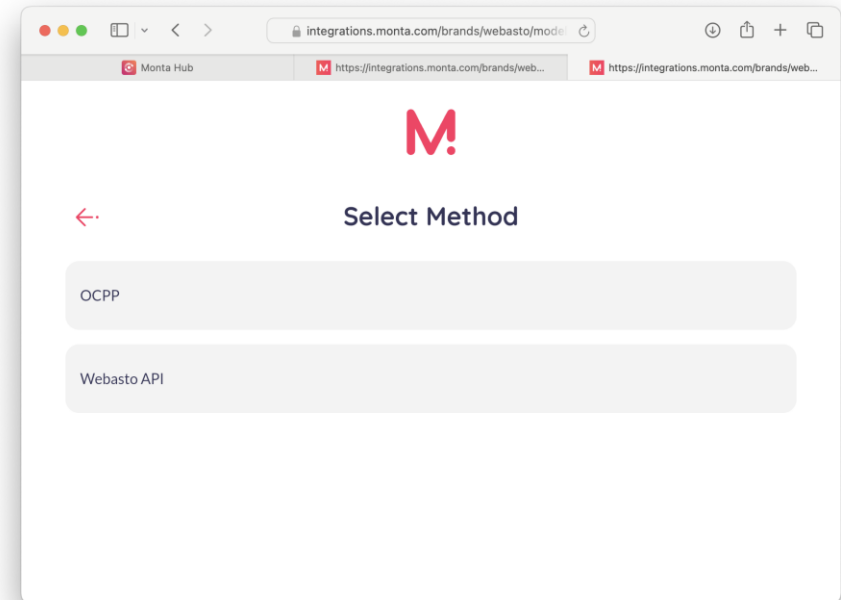

3

Set up in Monta

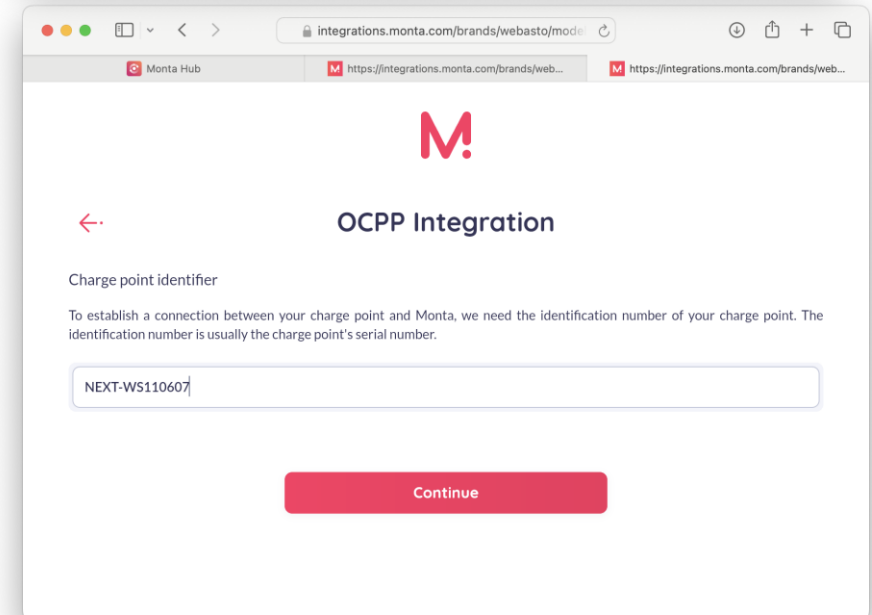

- -In the Integration Manager, select OCPP
- -Then enter the ChargePoint ID, upper/lower case is important.
- -Click on “Continue”. You will receive the backend endpoint to be entered in the wallbox, at least:

`wss://ocpp.monta.app`

WEBASTO NEXT x MONTA

4

Configuration of NEXT

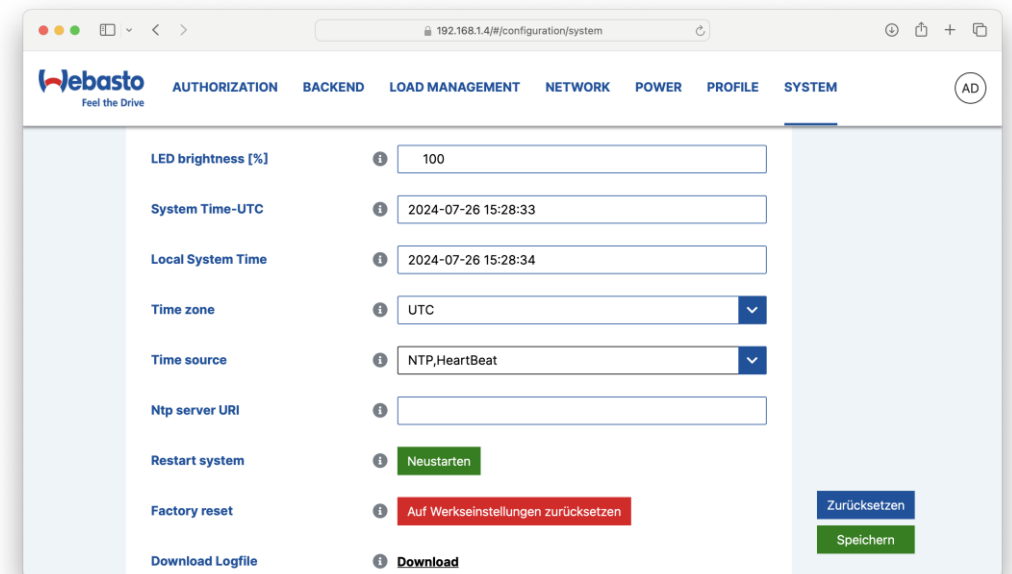

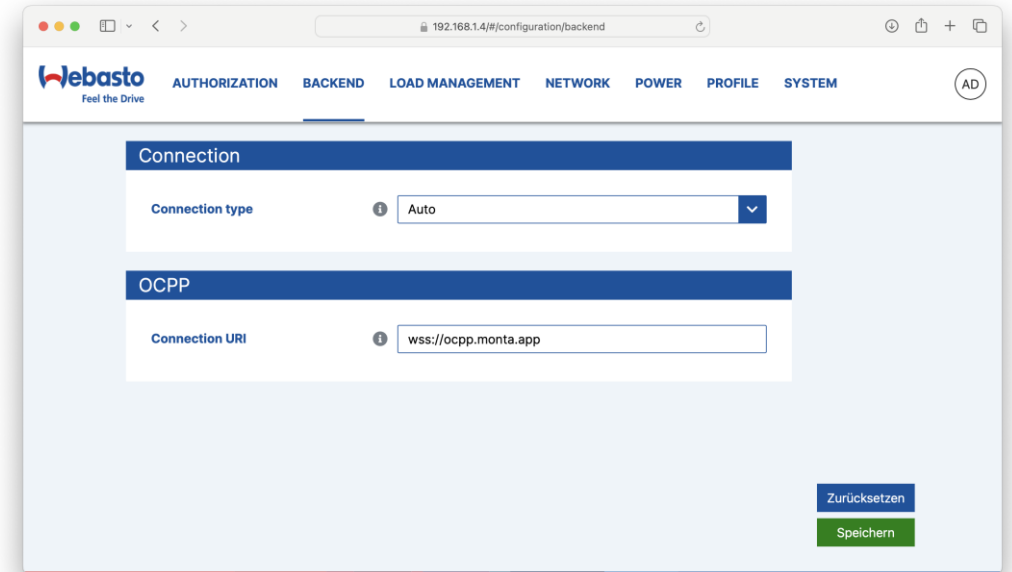

It is important that the Next is connected to the Internet either via WLAN or LAN.

There are two settings to make:

-Under “Backend”, enter the Monta backend endpoint: `wss://ocpp.monta.app`

-Under System, the order “NTP, Heartbeat” must be set as the time source (“Time Source”).

Then click on “Save”.

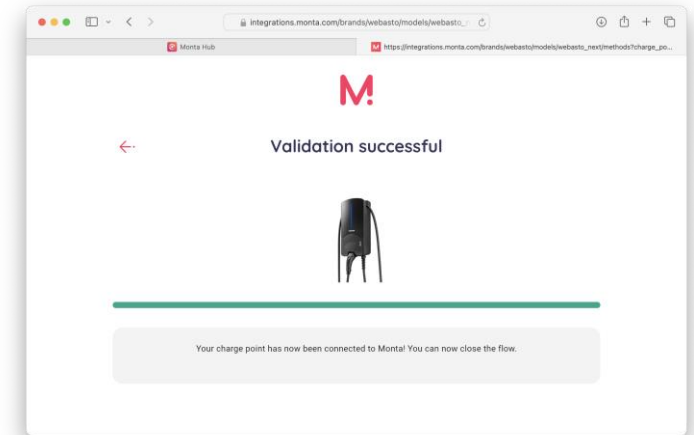

WEBASTO NEXT x MONTA

5

Final step

Now click on “Yes, pair charge point” in the Monta Portal. The portal now accepts the connection and pairs with the box.

Yes, pair charge point

WEBASTO NEXT x MONTA

6

Check

A correct backend connection is displayed in both Monta and NEXT.
